# US 11,403,932 Claim 1

converting the digitized voice alert into at least one language selected from a plurality of languages for broadcast of the digitized voice alert through the at least one wireless hand held device; and

For example, using Motorola Solutions Inc., **voice alerts can be converted into a language selected from a plurality of different languages using the Command Central AXS to wireless devices** in emergency situations.

## EFFORTLESS IS ALWAYS IN REACH

APX NEXT is designed for effortless usability when everything is on the line. Intuitive knobs and buttons are easily distinguished by touch. A mission-critical touchscreen makes it fast and easy to operate your radio. ViQi understands a huge range of natural language voice commands, so you can operate the radio with eyes-up awareness. Every interaction is simple, fast and logical. You stay focused on what matters—your mission and your safety.

## BRING NEW INTELLIGENCE TO THE POINT OF ENGAGEMENT

APX NEXT mission-critical apps bring new intelligence to the field. ViQi enables natural language database queries, rapidly giving vital information, and letting dispatchers stay focused on critical situations. And as part of our unique, end-to-end public safety ecosystem, APX NEXT data and operations are secure, and new capabilities can be seamlessly added as your needs evolve

# US 11,403,932 Claim 1

**transmitting the digitized voice alert through specific towers of a cellular communications network** in the specified region for distribution of an emergency announcement about the emergency situation provided by the digitized voice alert to at least one wireless hand held device in communication with the specific towers of the cellular communications network in the specified region.

For example, Using **Motorola Solutions Inc., voice alerts announcing an emergency situation, can be transmitted through a city's cell tower.**

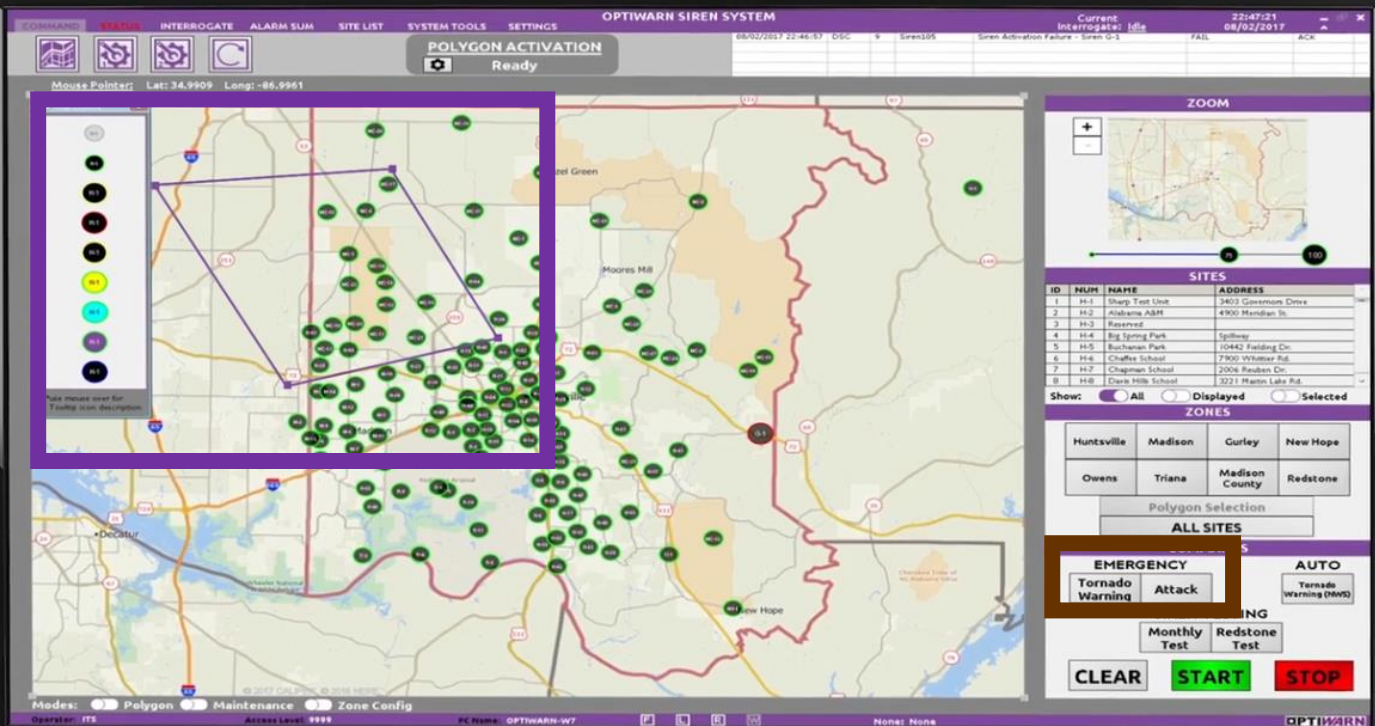

# US 11,403,932 Claim 1

transmitting the digitized voice alert through specific towers of a cellular communications network **in the specified region for distribution of an emergency announcement about the emergency situation** provided by the digitized voice alert to at least one wireless hand held device in communication with the specific towers of the cellular communications network in the specified region.

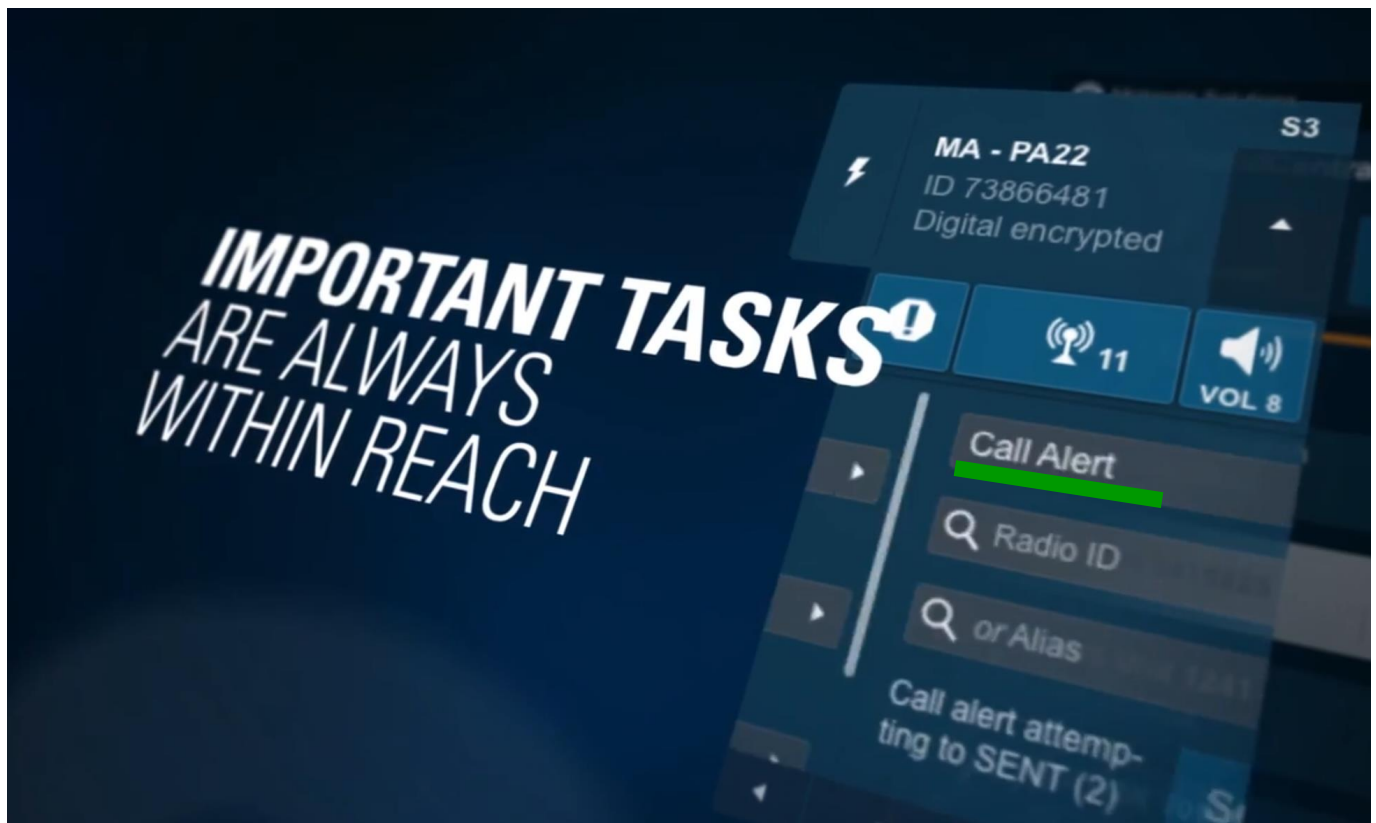

For example, Using Motorola Solutions Inc., voice alerts announcing an emergency situation, can be transmitted through a city's cell tower **in a specified region about an emergency situation, like a Tornado,** to a wireless device.

# US 11,403,932 Claim 1

transmitting the digitized voice alert through specific towers of a cellular communications network in the specified region for distribution of an emergency announcement about the emergency situation provided by the digitized voice alert **to at least one wireless hand held device in communication** with the specific towers of the cellular communications network in the specified region.

For example, Using Motorola Solutions Inc., voice alerts announcing an emergency situation, can be transmitted through a city's cell tower in a specified region about an emergency situation, like a Tornado, **to a wireless device.**

<https://video.motorolasolutions.com/detail/videos/dispatch-reporting/video/6144092735001/experience-the-future-of-dispatch-with-commandcentral-axs?autoStart=true>

For example, Using Motorola Solutions Inc., voice alerts announcing an emergency situation, can be transmitted through a city's cell tower in a specified region about an emergency situation, like a Tornado, to a wireless device **with cell towers of the cellular communication network.**

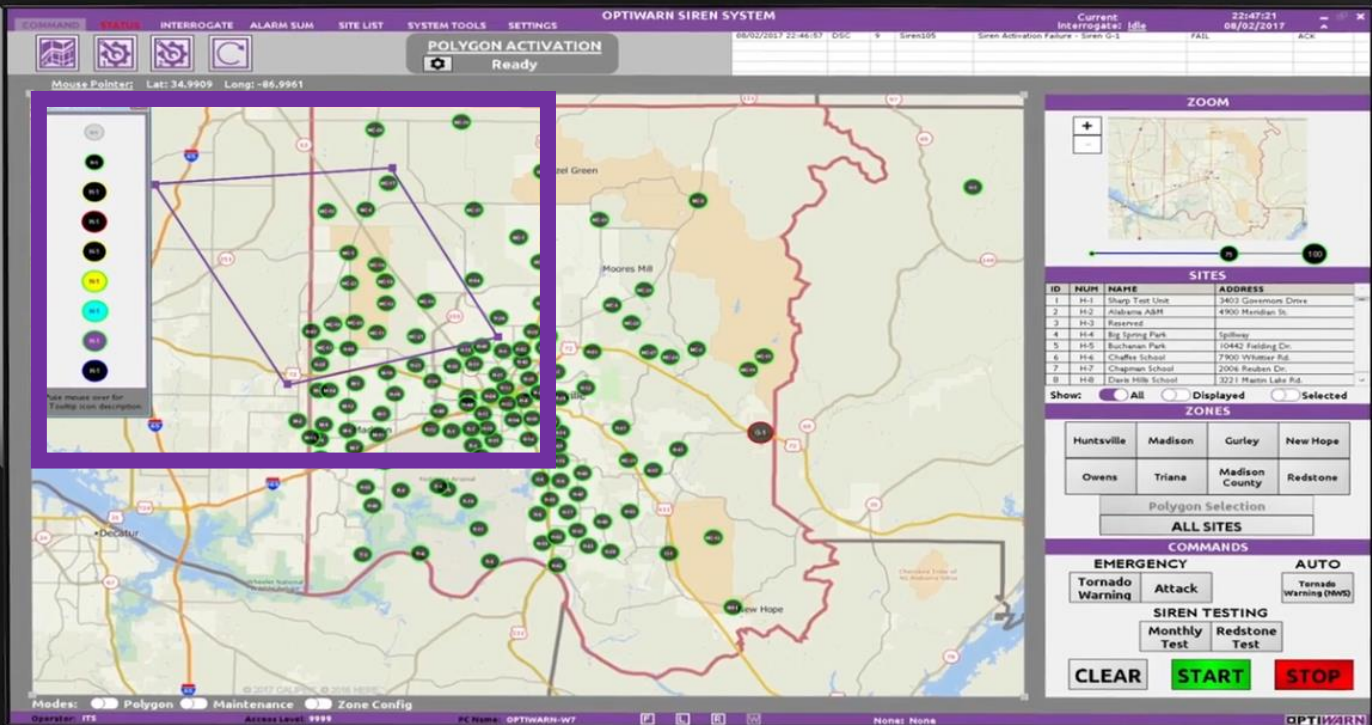

# US 11,403,932 Claim 1

transmitting the digitized voice alert through specific towers of a cellular communications network in the specified region for distribution of an emergency announcement about the emergency situation provided by the digitized voice alert to at least one wireless hand held device in communication with the specific towers of the cellular communications network **in the specified region.**

For example, Using Motorola Solutions Inc., voice alerts announcing an emergency situation, can be transmitted through a city's cell tower in a specified region about an emergency situation, like a Tornado, to a wireless device with cell towers of the cellular communication network **in the specified region.**
